

Make Sure You're Caught Up on Annual Continuing Education

Meeting your annual CPE requirement may seem tricky. We've boiled the system down into an easy to remember formula so you always know what course(s) to take:

1. Take one 6-hour course per calendar year and don't take the same course twice.

2. The course you choose must be **authorized*** for your expiration year.

*If your license expires in 2024, for example, make sure you take a regular 6-hour CE course that is authorized for 2024.

3. Complete your CE and renew your license *before* applying for exams to avoid delays.

How to Check CE History

You can view the CE courses you've taken over the last five years through the TSBPE's **Public License Search**:

CE History

* Manually entered data may cause variations in "Completed On" date.

Credit	Provider	* Completed
2024 - Regular CE Credit:	[CPE PROVIDER NAME]	09/13/2023
2023 - Regular CE Credit:	[CPE PROVIDER NAME]	09/13/2022
2022 - Regular CE Credit:	[CPE PROVIDER NAME]	09/11/2021
2021 - Regular CE Credit:	[CPE PROVIDER NAME]	09/12/2020

1. Go to:

<https://vo.licensing.hpc.texas.gov/datamart/selSearchType.do>

2. Choose a Search Type and then choose "Texas State Board of Plumbing Examiners" for Board, and "Plumbing – Licensed or Registered" if you're a plumber or "Plumbing – Inspector" if you're an inspector.

3. Enter your details, click "Search", then click your name.

4. Under "CE History" on your license page, you'll see your recent CE courses. Make a note of any missed years.
